Champion
December 2017

Since starting my freelance journey in 2022, I have gained experience as a web developer, delivering scalable and efficient web applications to clients. Proficient in designing and implementing efficient server-side applications using various programming languages and frameworks.

EXPERIENCE

FREELANCE WEB DEVELOPER   June 2022 - Present

- Developed and deployed websites for clients using HTML, CSS, JavaScript, and PHP using frameworks of Laravel.
- Helped clients choose and set up shared hosting plans.
- Integrated various third-party APIs and plugins to enhance website functionality, such as payment gateways, Google cloud storage, Email, and SMS notification.
- Provided on-going website maintenance and support including updates.
- Utilized various tools and technologies to enhance the website development process, such as Git, and Bootstrap.

EDUCATION

B.S. in Information Technology   2019 - Present
STI College Cubao

I.T. in Mobile App and Web Development   2016 - 2018
STI College Cubao
Graduated with Honors
